This FREE three-day workshop will demonstrate how to use Project Archaeology: Investigating A Roman Villa curriculum to achieve educational goals in the delivery of social studies, history, science, and the visual arts. Learn how to use archaeology to get your students to apply language arts and math to analyze data while also learning about the importance of archaeological heritage. Spots are limited! Register today!

- Complimentary curriculum guide
- Coffee and snacks
- One continuing education credit for \$23 (optional)
